PRESIDENTIAL SERIES ALUMINUM RAILING SYSTEM

# Low-Maintenance Juliette Balconies

are well-designed--to be both strong, and visually appealing.

AVCON Juliette Balconies are made in America of strong aluminum alloys, with welded corners, welded balusters, and welded flanges for a secure connection to the building. Our Juliette Balconies come in a variety of colors, all with a 10 Year Warranty against cracking, chipping or peeling.

- All Components are Super Low-Maintenance Aluminum
- Never needs painting
- Won't rust, rot, crack or peel
- Easy to Install

Juliette Balcony Flange and Rail Design

## Materials

All AVCON Aluminum components are extruded from 6005-T5 alloy, with a minimum ultimate strength of 35,000 psi. Posts come in a variety of thicknesses, and are also Powercoat™ finished.

## Gloss or Textured Finishes

Powercoat™ allows us to produce a high-quality, long-lasting finish on our aluminum, which is also environmentally friendly. Powercoat is twice the thickness and hardness of a typical baked enamel finish, and meets AAMA 2604-6 standards for the ultimate in durability and UV Protection.

# It's Sleek, Beautiful and Low Maintenance.

Plus with Tempered or Laminated Glass, it Meets Code Requirements.

Add style and protection without blocking out a beautiful view. The outer rail provides a secure hand grip, and completely covers all stainless-steel fasteners for a sleek, hidden-fastened look, in Post-To-Post or Continuous Railing.

- Super Low-Maintenance Aluminum
- Never Needs Painting
- Won't Rust, Rot, Crack or Peel
- 10 Year Warranty

# Strong, Architecturally-Pleasing Aluminum Privacy Screening in Three Different Designs.

An All-Aluminum, or Aluminum+Vinyl Privacy Fence System.

You won't find many privacy screen panel systems with this amazing combination of attributes. It won't rust. It won't rot. You won't get that with wood, vinyl alone or steel.

## Privacy, with the Strength of Aluminum.

Aluminum privacy screening features strength and durability that you just can't get from a typical vinyl or wood fence systems. It's the ideal privacy panel for a residential, commercial or industrial application, as patio or balcony screening, to contain or shield air conditioning equipment, dumpsters, pipes, and electrical systems. Privacy fencing is designed to last for years and years without the worry of ongoing maintenance.
